

Dsut Collector Filter Cartridges

TECHNO-FIBRA

- Fine Fiber Technology by Technomart extends cartridge life and ensures highest efficiency by filtering small particles on the surface of the media.
- Wide pleat spacing provides thorough pulse cleaning of fibrous and agglomerative particles.
- Filtration efficiency of 99.999% on 1-micron particles.
- Flame retardant media available.
- Washable many times.

Temperature Resistant : 65° C

Application : Excellent on applications with a combination of fibrous and non-fibrous dust including ceramics, cotton, fiberglass, grains, and many more.

Specification : Fiber Technology - Synthetic fibers with an average diameter of 0.2 µm.
.... Flame retardant.
.... Fractional Efficiency - 99.999% on 1.0 µm particles.
.... Standard Construction - Galvanized end caps. Galvanized expanded metal liner 60% of open area. Urethane gasket. No outer liner. Optional stainless steel liner and end caps.
.... Operating Temperature - Maximum 150°F (65°C).
